## **The Outlook For Coating And Filler Pigments In Paper: 2008-2013**

### **Volume Three - Asia Pacific**

As part of its continuing services to the mineral industries, MineSet Partners is pleased to announce the completed Asia Pacific volume from the second **global** edition of The **Outlook for Coating and Filler Pigments in Paper**.

The program enables each subscriber to obtain an in-depth perspective of the structure of the Asia Pacific Paper coating and filler pigment business in selected regional markets, as well as the trends and drivers from the key end-use paper applications in the region.

Business intelligence data is organized to provide each subscriber with the following details:

- Analysis of eight major paper coating and filler pigment product categories and their use in key paper markets in China, Indonesia and South Korea
- Analysis of individual supplier market shares and product lines, to make accurate competitive assessments and plan effective market and product strategies
- Five-year forecasts for all product categories and end-use markets, to provide critical base-line data for formulating long-range business plans
- Overview and trends in the Asia Pacific paper and paperboard industry
